

Blue Moon Doula Services
COVID19 Waiver

Notice to our clients receiving Placenta Preparation Services from Blue Moon Doula Services!

Thank you for choosing service with Blue Moon Doula Services. As you know, we are currently in the midst of the COVID-19 pandemic. At this time, we do not have a great deal of information about how COVID-19 affects the placenta and the ingestion of the remedies.

Please know that we will not perform placenta preparation services for a placenta if you have been ill with COVID-19 in the 6 week period prior to your birth. If you have had COVID-19 and it has been over 6 weeks, or if you are unaware if you've had COVID-19 at any point we may not prepare the placenta if we feel it does not visually look well. If the placenta looks normal, please know that this is still not a 100% effective method of determining the safety of ingestion. Choosing to ingest placenta remedies post-COVID-19 is at your own discretion.

By signing and dating below, you acknowledge the information above and agree to release your placenta to us in knowing this. We look forward to working with you!
